Felting:

Wash the pair of slippers alone in the washing machine at 40°C (warm). Choose a program for cotton or coloured clothing with 800-1000rpm spin cycle. Do not use a short or water saving program. Add a small amount of detergent without optical brighteners or softeners. Do not

add softener to the wash load. To help the felting process add 2 or 3 old tennis balls to the load. After the felting program remove immediately from the machine and shape into form (it helps to put the wet shoes on your feet). Allow to dry out of direct sunlight.
