Colour Sequence: (see Diagram)

Tension:

23 sts and 36 rows to 10 cm meas over half-fisherman's rib using size 4 mm needles or size needed to achieve given tension

Instructions: (changes for larger size given in brackets. If only one number is shown, this applies to both sizes)

Back:

Cast on 123 [143] sts (incl. 2 selvedge sts each edge) and foll col sequence (see diagram) work 4 rows in ribbing beg with a WS row. Then cont. in half-fisherman's rib between the selvedge sts. When work meas. 10 cm total (= 4 rows in ribbing and 30 rows in half-fisherman's rib) the side slit is finished. Cont. straight with only 1 selvedge st on each edge.

Next row (RS): k2tog (2 selvedge sts become one), work in patt to last 2 sts then k2tog (2 selvedge sts become one). = 121 [141] sts

When work meas. total of 58 [61] cm ending with a WS row work the shoulder shaping.

Next row and beg of next (RS and WS) rows: cast off 3 sts 9 [12] times and 2 sts 2 [1] time(s) = 59 [65] sts. When work meas. total of 64 [68] cm (225 [241] rows in half-fisherman's rib) end with a WS row.

Next row: place the 59 [65] sts on a holder.

Front:

Work as given for Back but end side slits after 6cm from cast on.

When front meas. 36 [38] cm for v-neckline opening divide work as foll.

Next row (RS): (first row in col. 41107) working over first 60 [70] sts place rem. sts on holder (centre st and 60 [70] sts for right front). selvedge st, 57 [67] sts in established patt, k2tog (or k3tog (st and yo from prev row and next st))

Next row: p the decs of prev. row. Cont. the decs in every 2nd and 4th WS row 28 [31] times more.

AT THE SAME TIME work the shoulder decs as given for Back.

Then work the right side decs for the v-neck over the 60 [70] sts for the right side and leave centre st on a holder. Work the decs the same sequence but at the beg of row after the selvedge st and as skp.

Sleeves: (work 2 alike)

Using col. 41107 (light salmon) cast on 57 [65] sts and beg with a WS row work 14 rows in ribbing patt. Cont. in half-fisherman's rib and col. sequence (as shown in diagram). For the sleeve shaping in every 12th row inc. 1 st each edge 11 [12] times (selvedge st, M1tbl, work to end of row in patt as established, M1tbl, selvedge st) P the new sts in the foll row then after every 2nd inc. into the patt. Cont. until sleeve meas. 40 [45] cm (143 [163] rows) ending with a WS row.

Next row: cast off all sts in patt.

Making up:

Close one shoulder seam. For the neck binding with right sides facing using a circular needle one size smaller than for jumper and col. 41101 (sand) pick up along neckline 208 [224] sts (incl. 2 selvedge sts) (selvedge st, 73 [77] sts along front right edge, centre st from holder, 73 [77] sts along front left edge, 59 [65] sts from back holder, selvedge st) Work 11 rows in ribbing patt beg. with a WS row and foll. col. sequence:

- 6 rows in col. 41101 (sand)
- 2 rows in col. 41112 (spring green)
- 2 rows in col. 41101 (sand)

1 row in col. 41112 (spring green) AT THE SAME TIME in the front over the centre 3 st in every alt row (RS) make a double decrease (s2kp2) in every RS row. (5 times) = 198 [114] sts

Row 11 (RS): in col. 41112 (spring green) cast off all sts in patt and work the double decrease one more time over the front 3 sts.
